# CONSERVETECH

## MICRO CLIMATE CONTROL DEVICE

### 3 Key functions

Maintains desired  
relative humidity  
accurately

Positive air pressure  
restricts entry of  
dust and pests

High quality filter sends  
clean air free from  
harmful pollutants

ConserveTech creates an environment to  
protect artefacts from:

- Fluctuating relative humidity
- Dust
- Mold and fungus
- Deterioration

### What Experts say?

“I am pleased to see something of such  
quality and performance being manufactured  
locally and I’m convinced that it will be an  
effective substitute for the prohibitively  
expensive devices of similar specifications  
available in international market”

- S. Girikumar (Art Conservator)

## FEATURES

Effortless  
Setup

Advanced  
Touch  
Display

Seamless  
Integration

Prompt After  
Sales Service

Accurate  
Readings

Low Battery  
Consumption

Data logging &  
Easy Access

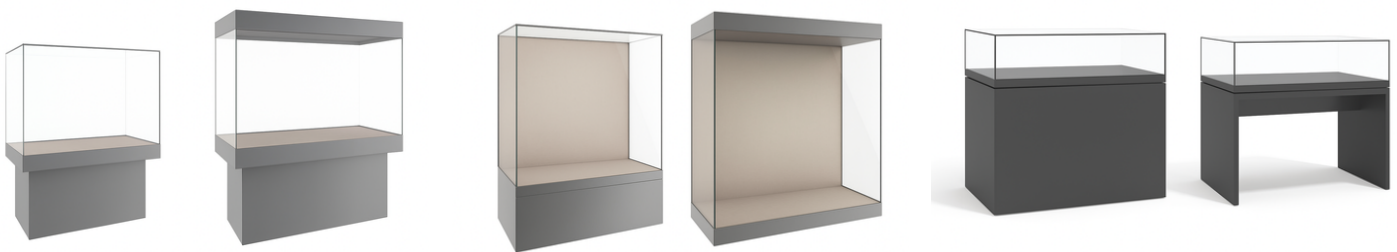

Humidify &  
De-Humidify

# MUSEUM DISPLAY CASES

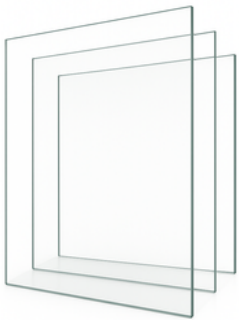

**Developed in conformity with international conservation standards and practices**

**FREE STANDING CASES**

**WALL CASES**

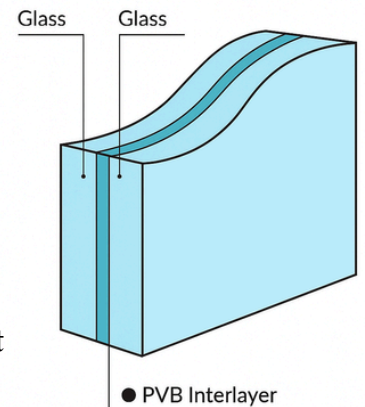

**TABLE CASES**

**Glass: An important factor in Museum Display Cases**

**SHRESHA uses Museum Grade Laminated Safety Glass**

- ✓ Safe for artefacts
- ✓ Protects from natural disasters
- ✓ Extra clear glass for clear view of artefact
- ✓ High strength of glass increases security

## FEATURES

Customized Design

Air tight; Min Air Exchange

Compatible with Conservetech

After Sales Service

LED Lighting < 50 Lux

Wood Free Manufacturing

Concealed Hinges

Sturdy Framework

Glass to Glass Seal

Durable Opening

# STORAGE CABINET

Like artefacts on display, those kept in museum storage require protection from temperature, relative humidity, light, dust, airborne pollutants, and pests

ARTEFACTS

CANVAS &  
PAPERS

TEXTILES

## FEATURES

Anti Theft With  
Digital Lock

Dust  
Proof

Powder Coated  
Custom Colors

Fibre Cast Wheels  
For Mobility

Custom Design  
As Per Artefacts

High Quality  
Hardware

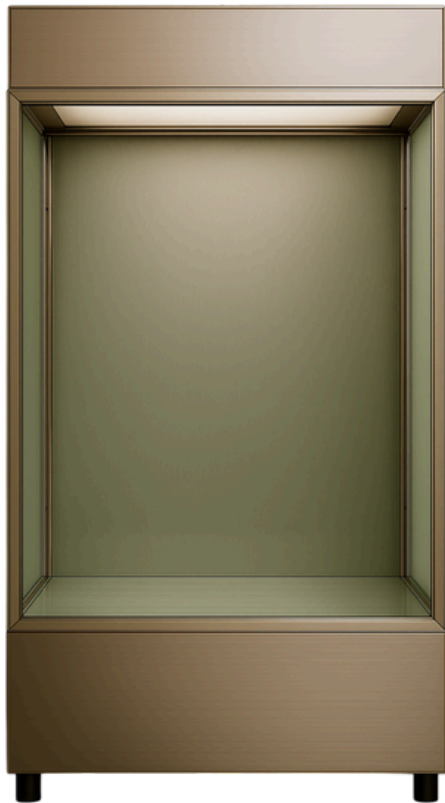

Internal  
Lighting

Heavy Duty Metal  
Construction

# LOW OXYGEN DISPLAY CASE

## 3 Key functions

**Eliminates Microbial Growth**

**Prevents Oxidation**

**Maintains Relative Humidity**

**Premium display case for conserving perishable artefacts**

**Available with Climate Control Device inside**

Advanced Air System with constant Nitrogen supply

Tailored for fragile and perishable artefacts

## FEATURES

Customized Design

Air tight; Min Air Exchange

Compatible with Conservetech

After Sales Service

LED Lighting < 50 Lux

Wood Free Manufacturing

Concealed Hinges

Sturdy Framework

Maintains Low Oxygen Level

Glass to Glass Seal

Durable Opening

Nitrogen Flow In Cabinet

# ARTCARE CABINET

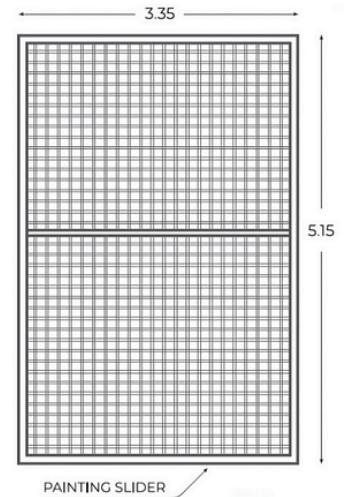

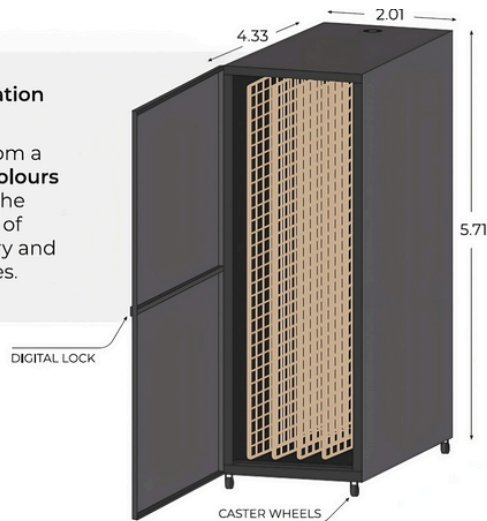

## 2 Variants

### 4 Slider

Capacity: 8 Paintings

#### Customisation Option:

Choose from a range of **colours** to match the aesthetics of your gallery and preferences.

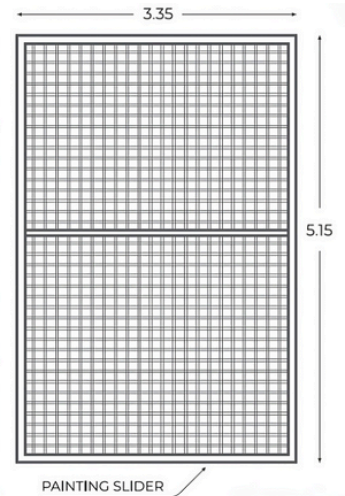

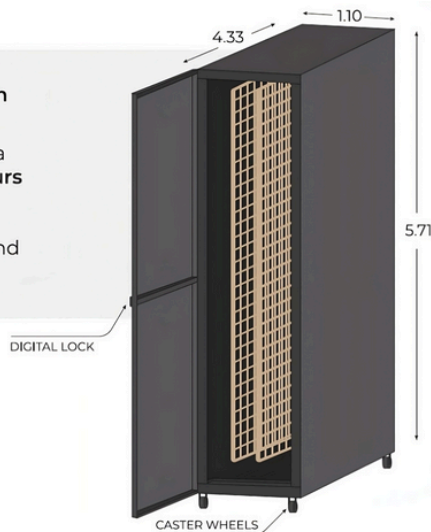

All dimensions are in Feet.

### 2 Slider

Capacity: 4 Paintings

#### Customisation Option:

Choose from a range of **colours** to match the aesthetics of your gallery and preferences.

All dimensions are in Feet.

## FEATURES

Relative Humidity Control

Min Air Exchange; Max Air Tight

Digital Theft Proof Locking

Easy Mobility With Wheels

Prompt After Sales Service

Protects the Artefacts

Internal Lighting

Heavy Duty Metal Construction

# DRY CABINET

ShreSha's Dry Cabinet preserves the artefacts from Relative Humidity with precision

RH min. up to 30%

With Climate Control Device inside

Tailored for fragile and perishable artefacts

## FEATURES

Relative Humidity Control

Min Air Exchange; Max Air Tight

Digital Theft Proof Locking

Easy Mobility With Wheels

Prompt After Sales Service

Protects the Artefacts

Internal Lighting

Heavy Duty Metal Construction

## ANOXI PRO

AnoxiPro eliminates insect infestation in a low-oxygen environment, particularly targeting artefacts such as taxidermy, textiles, books, and archival documents. The device comprises a compressor, a nitrogen generator, a relative humidity controller, and an air-tight stainless steel chamber.

## TACKING IRON

The ShreSha Tacking Iron is a compact hand-held conservation tool designed for the consolidation of flaking and fragile paint layers on valuable artworks. It provides controlled, low-temperature heat that activates conservation-grade adhesives without stressing the substrate. Its precise heating surface allows conservators to re-adhere lifting paint flakes, relax distortions, and secure vulnerable edges with minimal intervention. It has a non-stick coating, rounded sides and a pointed tip for access to hard-to-reach areas.

## FEATURES

Easy To Use

Enhanced Efficiency

Safe for Artefacts

Prompt After Sales Service

## SUCTION TABLE

Provides a stable platform for conservation, digitization and documentation of delicate collections without using adhesives.

Durable scratch-resistant metal construction prevents damage to Artefacts.

Powerful vacuum prevents objects from falling or being damaged.

Suitable for a variety of conservation tasks, including manipulation, cleaning and digitization.

## LIGHT TABLE

Conservators can use the Light Table to examine the following aspects of paintings, textiles and photographs:

- Examine for tears, fold or stains.
- Identify materials used in objects.
- Repair objects by mending tears or removing stains
- Prepare items for display by flattening wrinkles on paintings or paper.

## FEATURES

Customized Design

Enhanced Efficiency

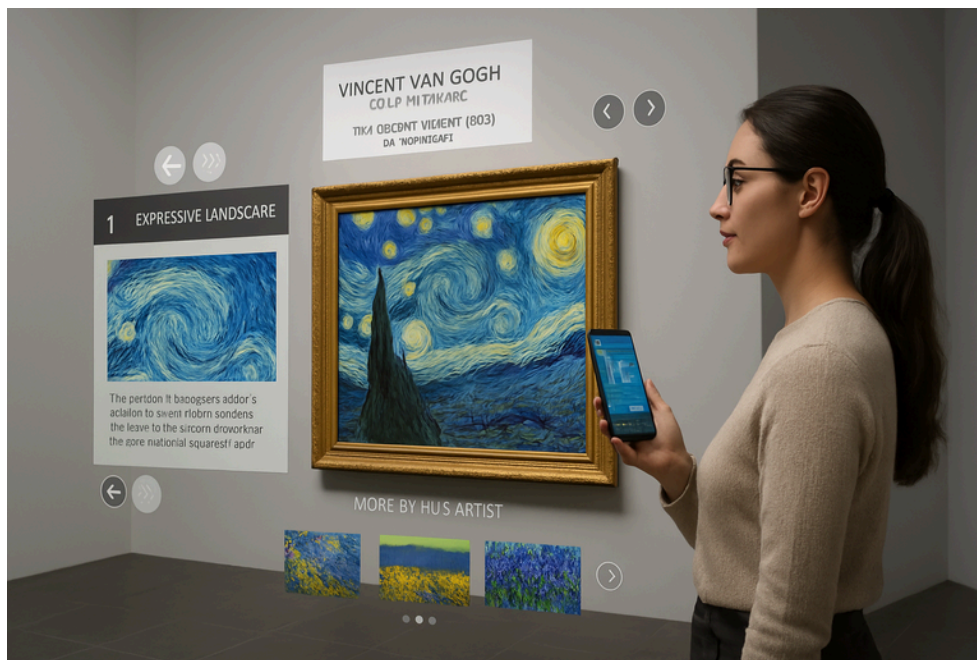

Durable & Economical

User Friendly Operation

# AR SOLUTION

The AR solutions gives a dynamic perspective while viewing the museum

## FEATURES

Multi Language

Seamless Navigation

Analytics

AR-VR Tours

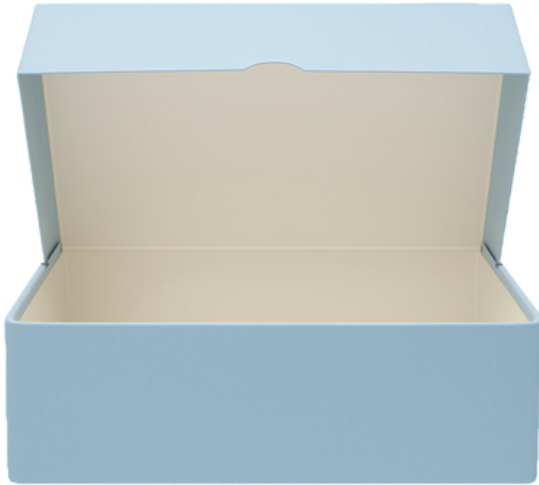

Variety Components

Multiple Resources

# ARCHIVAL BOXES

Sizes: A2+, A3, A4, B4, Legal Size

Archival storage boxes are used to preserve priceless documents, photographs, books and other valuable items

- Material: Acid free corrugated sheet
- Thickness: 3mm
- Color: White/Gray

## Why ShreSha's Archival Boxes?

- The acid free corrugated sheets provide long term preservation
- Thickness of the sheets provides sturdy protection
- It prevents external factors like mold, dust, water and harmful elements from damaging the artefacts

## FEATURES

Easy To Use

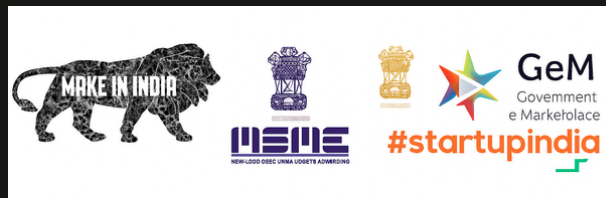

Easy Labelling

Safe for Artefacts

Easy To Store
